

Welcome to Pink Bubble Dreams!

Everybody dreams of a better life..... better finances, better relationships, better faith, a better home, better health, or a better job.

Visualization is an important tool in goal setting. It is well known and documented that visualizing a goal is a crucial step in the goal-setting and achieving process. This sets the law of attraction into action. Simply put the law of attraction states that whatever you give energy, focus and attention to, you will get more of in your life.

Our pink bubble is a product to help you stay focused on your dreams and thus help you to work to their achievement. It will help you visualize your dream so the law of attraction can take effect. The bubble protects your dream from outside influences. Pink is a color we associate with emotions and passion. So protecting your dream in a pink bubble not only helps you to visualize your dream but also to emotionalize it and protect it.

"The more intensely we feel about an idea or a goal, the more assuredly the idea, buried deep in our subconscious, will direct us along the path to its fulfillment." - Earl Nightingale

Congratulations on making the decision to step out and achieve your dreams! We hope our pink bubble induces the creative, maybe dormant side of you that has forgotten about living the life of your dreams.

Here's to all of our pink bubble dreams!

Sincerely,
The Pink Bubble Dream Team
